1. At a brief meeting between [REDACTED]

25X1A

[REDACTED] stated that he had issued a hold order on construction of certain parts of [REDACTED] to permit installation of the two 8x10x3' cabinets destined for the Photochemical Solutions Laboratory, Room 311. [REDACTED] stated that [REDACTED] would be willing to ship the cabinets in advance of the rest of the equipment at their own expense and that they could be delivered to Washington within two weeks of receipt of a request. [REDACTED] agreed to advise him of the required delivery date sometime after the 15th of June. However, he does not expect that the contractor will want the cabinets before 31 July which means that they will be included with the full shipment. [REDACTED] currently plans to ship all of the equipment so as to arrive in Washington by 31 July 1962, but will delay shipment several weeks should this be desirable to fit the building schedule.
